Sherry,

Attached are Region 5's FY16 Tribal RSO Excel worksheets for LUST cleanup and LUST prevention. Also attached is the FY16 Excel worksheet with the explanations for the requests from your email to Linda Gerber last year (also attached). The FY17 Excel worksheet template is also attached which provides a field to explain the requests. Feel free to use any of the attached formats or combination of formats that is easiest for you.

Thanks.

Judy Barrows

Subject: FW: Final funding decisions for FY16 Tribal UST & LUST budgets

Judy,

Would it be possible for you to send me the Excel worksheets for the LUST cleanup and LUST prevention funds for FY16. I would like to show that we made changes to what we spent money on. If there is another form that you prefer to use to depict our request for FY17 please send that to me.

Thanks,

Sherry

Subject: Final funding decisions for FY16 Tribal UST & LUST budgets

As we begin our FY17 process for making funding decisions for our UST/LUST tribal work, I wanted to provide you all with a summary of the final decisions for FY16. Many thanks to all of you for your input into the FY16 Tribal Regional Strategic Overview (RSO) process.

The attached summary provides the regional requests, the final amounts approved by OUST for each region, and each region's planned expenditures for underground storage tank (UST) program work in Indian country from the following appropriations:

- Environmental Programs and Management (EPM)
- LUST Prevention, and

- LUST Cleanup.

As you know, the LUST Prevention and Cleanup requests far exceeded available funds. We appreciate your willingness to work with us to make difficult decisions.

If the attached does not accurately reflect how you have allocated your funding, please let Judy Barrows know. This will help better inform the FY17 decision-making. If OUST approved money for contract work, but your task orders are not fully in place yet, please continue to work with Christine Edwards to process task orders so that we can obligate the money approved for this work.

For FY17, we want to continue improving the tribal RSO process. As you know, we have RSO calls set up with all of you during November and December, and we plan to convene a regional panel in January to help inform our decisions. I will be in touch to give you more information about this soon.

Please share this email with others your region who are involved in the tribal RSO process.

- Carolyn
